

BIG SMALL SPACES

Maximising space and style through design

THE "CONSULT"

Purchase for 150€

This is an online consultation call that will give you the tools you need to start maximising your space from the moment you hang up. Virtual Consultations are 1-hour long, and your location doesn't matter because we'll 'meet' on Google Meet, Skype, or WhatsApp.

If you want to give your home a fresh look but aren't sure where to start, this consultation is just what you need! Maybe you aren't sure how to rearrange your furniture, what colour goes best with your sofa, or how to add more storage space to your home.

Get all your design questions answered from the comfort of your own home, and implement tailored design solutions on your own time.

Service Includes:

- Preliminary study of your Design Questionnaire
- 1-hour online call addressing your specific design dilemmas and discussing layout/space planning, colour palettes and storage solutions
- A follow-up email, including a checklist of ideas and suggestions discussed

To make sure you get the most out of our call, please fill out the [design questionnaire](#) by clicking the "purchase" button for your consult. You will be redirected to a virtual design portal and asked to provide details regarding your space. Make sure to include any information or photos you think may help express your needs and your vision for your space.

**Prices shown per room pertain to single-function spaces up to 20m². Larger rooms will be charged an additional 25 €/m².*
